

Our Due Diligence with COVID-19 Coronavirus

With the recent increase of COVID-19 cases in the Hudson Valley, it is prudent that we take necessary precautions for the safety of our customers and employees. With that being said- beginning Thursday, December 3, 2020 branch transactions at all Wallkill Valley Federal Savings and Loan locations will be limited to our drive-up lanes only.

We have 6 branch locations that offer drive-up capability for your convenience (Wallkill, Walden, Milton, Montgomery, Highland Falls, and Monroe).

Our Otisville and Maybrook Branch locations will only have FRONT DOOR SERVICE AVAILABLE, as these locations do not have drive-up access. * The ATM in Maybrook is available for transactions and will remain open.

As always, we encourage you to utilize the following services: online banking, mobile banking, bill pay, remote deposit, night drop, telephone banking, and ATMs. **

Should you require access to your branch for transactions and services (New account openings, safe deposit box access, dropping off documentation that cannot otherwise be emailed, etc.) that cannot be performed at the drive-up lanes, we ask that you call the branch or the main number **845-895-2051** to schedule an appointment. Our Wallkill Branch location also has the walk-up window for transactions that cannot be performed at the drive-up lanes.

We know this will be inconvenient and we thank you in advance for your understanding during these difficult times. We continue our commitment to ensuring a safe banking environment for our staff and customers. Please continue to check our website for further updates.

*We ask for your patience as we will only be able to transact ONE customer at a time.

**Otisville does not currently have ATM access.

Thank you.
